

# MAHMUDUL HASAN

Undergraduate Student

## About Me

I'm a dedicated Software Engineer with a strong foundation in full-stack development and problem-solving. I enjoy building reliable, high-performance applications and have experience with technologies such as JavaScript, Python, Flutter, and databases. I'm passionate about writing clean code, learning new tools, and contributing to impactful software projects.

## Contact

Noakhali, Chattagram

## Skills

- JavaScript (Angular)
- HTML/ CSS
- Python (Django)
- SQL (PostgreSQL, Oracle)
- REST APIs
- Git
- Flutter

## Language

## Project

### Super Mario Game

- Created a 2D Super Mario-style platformer game with character controls, enemy AI, and level design using HTML, CSS, and JavaScript. Focused on gameplay logic, UI, and smooth animation.

### Voice-Text-AI

- Voice to Text AI is an intelligent speech recognition app that converts your spoken words into accurate, editable text in real time. Designed for professionals, students, and creators, it simplifies note-taking, content creation, and documentation through advanced AI voice transcription.

### Dishari(Ongoing Project)

- Dishari Medical is an innovative healthcare app designed to connect patients, doctors, and medical services in one seamless platform.
- It offers easy appointment booking, digital prescriptions, health record management, and instant doctor consultations.

## Education

### Noakhali Science & Technology University

2022 - present

Bachelor's of Science in Software Engineering

### Birshrestha Munshi Abdur Rouf Public College

2019 - 2021
